

## **MEDIA RELEASE**

**On Friday October Friday Oct. 30th the Dance Community in Southwestern Ontario comes together on stage for a spectacular evening of entertainment and all for the wonderful cause of Dog Rescue.**

**On this special night, just like last year, the Richmond Hill Centre for the Performing Arts hosts over 250 dancers from across the Province.**

**Producer Scott G. Kufske is overwhelmed by the response to this show.**

**Scott says "I am so grateful to the dance teachers and choreographers for all their help in organizing these families to gather for such a special evening. The children in the show are part of something representing integrity, compassion, and humanity. I have also asked many of my colleagues in the Dance Competition industry to help in the production of this show"**

**26 of Ontario's award winning Dance Studios and Companies will share the spotlight and will hand over \$10,000 at the end of the show to Dog Rescue groups from Ontario to share in that grand total. We will have a representative from the chosen Rescue groups in the audience who will witness a passion of dance similar to the passion we all share for dogs.**

**In addition, each performer and audience member will be bringing a can of dog food, so with a sold out crowd, the "Dancing for Dogs" rescues will share 850 cans of dog food!**

**The "ruff"-le table (a take on a raffle table) will raise even more funds with amazing gift baskets, theatre tickets, and surprises. Numerous door prizes will add to all the excitement.**

**Tickets for the "Dancing for Dogs" show can be purchased at the Richmond Hill Performing Arts Centre, Box Office: 10268 Yonge Street, 905.787.8811, \$30+HST for orchestra level and \$25+HST for Balcony seats, 7pm curtain time.**

**Our second show is a go!!! We are hosting a second show, just confirmed with another 18 studios from the Montreal area. That show will take place at the wonderful RIALTO theatre on Sunday November 15, 2015. Another 200 dancers from the Montreal are involved in that show.**
